Summary

Third-year Computer Science student passionate about Full-Stack Development, with experience building web applications using React, Node.js, and cloud technologies. Solved 1000+ DSA problems and worked on real-world projects. Seeking a software engineering opportunity to build scalable products and create real impact.

Education

Bachelor of Technology in Computer Science and Engineering

IES University (CGPA: 8.9)

Apr 2022 – May 2026

Bhopal, Madhya Pradesh

Experience

Orange Essence Technologies

Nov 2025 – Jan 2026

Web Developer Intern

Remote

- Contributed to the development of internal web applications, working on both frontend and backend features using React.js and Node.js to deliver user-friendly solutions
- Tested APIs using Postman, verified data with SQL queries, and managed data storage and retrieval using MongoDB

Projects

Nextrade | *React, Node.js, MongoDB, Tailwind CSS, Razorpay, WebSocket, Multer, Redis*

GitHub | Demo

- Built a full-stack centralized crypto exchange with a real-time order-matching engine, live candlestick charts, and a REST API for orderbook/trade/ticker data.
- Integrated Razorpay for INR deposits with signature-verified payments and idempotent wallet crediting, plus a KYC verification pipeline with document upload and admin review.
- Implemented JWT authentication with role-based admin access, and deployed the backend on Render and frontend on Vercel.

Zoom Clone | *Next.js, React, MongoDB, Tailwind CSS, WebRTC, Clerk*

GitHub | Live

- Built a full-stack video conferencing platform with real-time peer-to-peer communication using WebRTC, supporting multi-participant calls
- Integrated Clerk for secure OAuth-based authentication, enabling seamless user sign-up, login, and session management
- Implemented advanced in-call features including screen sharing, session recording, emoji reactions, and a latency monitoring dashboard to enhance user experience and debugging

QuickChat | *Node.js, React, MongoDB, Tailwind CSS, WebSocket*

GitHub | Live

- Built a real-time chat application using WebSockets for instant, low-latency messaging between users
- Implemented media sharing functionality allowing users to send and receive photos in chat
- Secured user data with JWT-based authentication and encrypted password storage using bcrypt

Technical Skills

Languages: C/C++, JavaScript, TypeScript, SQL (PostgreSQL, MySQL), HTML, CSS

Frameworks & Libraries: React.js, Next.js, Node.js, Express.js, Prisma ORM, Tailwind CSS

Databases: PostgreSQL, MySQL, MongoDB

Tools & Technologies: WebSocket, Git, Render, Vercel, Postman, VS Code
